

Breaking Bug: The Debugging Masterclass

WHERE VISION ASCENDS

30 SEATS · 3 HOURS/DAY · BEGINNER-FRIENDLY · 5-6 OCTOBER 2026

Welcome to Breaking Bug

CLOUD FUNDAMENTALS → GIT & GITHUB → PROMPT BATTLE → DEBUGGING & AMAZON Q → HANDS-ON CHALLENGE → LOGGING & QUIZ →

CLOUD-READY BUILDER

PREREQUISITES

Before You Arrive

- A laptop and charger
- Stable internet access
- An active AWS Free Tier account
- Basic knowledge of Git/GitHub, AI, and VS Code (recommended)

WORKSHOP BRIEF

AWS-CSE Workshop: Day 1 & Day 2

BEGINNER-FRIENDLY // HANDS-ON // 2-DAY FORMAT

A two-day, hands-on program introducing Cloud Computing, core AWS services, and Git/GitHub fundamentals — followed by real practice with Amazon Q Developer for code generation, debugging, and prompt engineering. Attendees work through live challenges: fixing buggy programs, generating code, and exploring logging and monitoring, capped with an interactive prompt battle and quiz. The workshop closes with guidance on AWS certifications, AWS Skill Builder, and community and internship opportunities.

Day 1

SESSION 1

10:00 AM - 11:00 AM

Cloud & AWS Fundamentals

- Introduction to the AWS DBIT Student Club and workshop flow
- Basics of Cloud Computing — what it is, why it's used, types, providers, lifecycle and architecture
- Introduction to AWS and key services: IAM, EC2, S3, VPC, RDS, Lambda and CloudWatch
- AWS pricing, billing and management

SESSION 2

11:00 AM - 12:00 PM

Git & GitHub

- Git & GitHub basics and account setup

SESSION 3

12:00 PM - 1:00 PM

Prompt Battle

- Introduction to Amazon Q Developer and prompt basics
- Interactive Prompt Battle and Quiz, followed by Q&A

Day 2

SESSION 1

10:00 AM - 11:00 AM

Debugging & Amazon Q Developer

- Quick recap of Day 1
- Syntax, Runtime, Logical and Security errors
- Introduction to Amazon Q Developer — benefits, installation, setup and AWS integration

SESSION 2

11:00 AM - 12:00 PM

Hands-On Challenge

- Generate a Python program with Amazon Q
- Fix a buggy program
- Explain an existing project

SESSION 3

12:00 PM - 1:00 PM

Logging, Monitoring & Quiz

- Career guidance on AWS Certifications, AWS Skill Builder, AWS Educate, Community Builder and internships
- Logging & Monitoring basics, followed by a quiz and Q&A

KEY TAKEAWAYS

- Strong understanding of cloud computing concepts
- Practical exposure to AWS services
- Hands-on experience with Amazon Q Developer
- Better debugging and problem-solving skills
- Knowledge of Git and GitHub workflows
- Guidance on AWS certifications and career pathways
- Confidence to build cloud-based projects independently

CERTIFICATE

RESOURCE PACK

STICKERS

CONFIDENT TO BUILD, DEBUG & DEPLOY ON AWS – INDEPENDENTLY.

WORKSHOP GUIDE

BREAKING BUG // DEPARTMENT OF COMPUTER SCIENCE ENGINEERING // 8TH OCTOBER 2026

SESSION	TIME	TOPIC	OUTCOME
Day 1 - Session 1	10:00–11:00 AM	Cloud & AWS Fundamentals	AWS Basics Covered
Day 1 - Session 2	11:00 AM–12:00 PM	Git & GitHub	GitHub Set Up
Day 1 - Session 3	12:00–1:00 PM	Prompt Battle	Prompt Basics Practiced
Day 2 - Session 1	10:00–11:00 AM	Debugging & Amazon Q Developer	Amazon Q Set Up
Day 2 - Session 2	11:00 AM–12:00 PM	Hands-On Challenge	Code Generated & Debugged
Day 2 - Session 3	12:00–1:00 PM	Logging, Monitoring & Quiz	Career Guidance Given

BREAKING BUG

A two-day AWS × CSE workshop taking attendees from Cloud and AWS fundamentals through Git/GitHub and into real practice with Amazon Q Developer — generating code, fixing bugs, and learning prompt engineering, logging and monitoring along the way.

QUICK OVERVIEW – THE FLOW

303 Hrs / Day6Certificate

SEATS

2 DAYS

SESSIONS

ISSUED

Key Takeaways

Strong understanding of cloud computing concepts

Practical exposure to AWS services

Hands-on experience with Amazon Q Developer

Better debugging and problem-solving skills

Knowledge of Git and GitHub workflows

Guidance on AWS certifications and career pathways

Confidence to build cloud-based projects independently
